# Heating, Piping & Air Conditioning

## January-December, 1945 — Vol. 17, Nos. 1-11

**Published monthly by the Keeney Publishing Company, 6 N. Michigan Ave., Chicago 2, Ill.**

*The index to the Journal Section of the American Society of Heating and Ventilating Engineers is separate (see page viii) This index does not include Equipment Developments; Recent Trade Literature; Meetings & Conventions;—departments appearing regularly in each issue. The Editor's pages in each issue include items of news, comments on current events, etc. In the January issue a complete directory section was published covering heating, piping and air conditioning equipment for industry and large buildings. The October and November issues were combined.*
